Unveiling Our Latest Innovations:
Expansion Capabilities

for Your Rugged PC Needs

We are thrilled to introduce our latest line of products designed to elevate your Rugged PC experience and meet the demands of your ever-expanding business needs. Our commitment to innovation has led us to develop three exceptional products, each equipped with cutting-edge features to ensure unmatched performance and adaptability.

1. LPC-870 - The Powerhouse of Performance:
- Robust Processing: Experience lightning-fast speeds and seamless multitasking supported by our range of advanced 10th Gen processors up to intel i9 & Xeon.
- Communication: Provides flexible options to extend your communication capabilities using 10Gbe, POE, CANBUS, RS232 serial , 4G , 5G & Wi-Fi.
- Reliability Redefined: Built to withstand the harshest conditions, our LPC-870 is your reliable companion in rugged environments.

2. LPC-870 with optional Expansion Node - Versatility at its Finest:
- Modular Design: Tailor your Rugged PC to perfection with our modular approach with the help of diverse range of customization options.
- Enhanced Connectivity: Stay connected on the go with a wide range of connectivity options, ensuring seamless communication in challenging environments.
- Adaptable in Any Situation: this unit with our Expansion Node adapts to your workflow, ensuring maximum efficiency in diverse operational settings.

3. SR-287X - Adapting to your Installation needs
- Cutting-Edge Technology: Stay ahead of the curve with the latest technological advancements integrated into our 2u Rack Solution.
- Expandable Storage: Never worry about running out of space with expandable storage options that accommodate your growing data needs.

These additions to our product lineup symbolize our commitment to providing solutions that not only meet but exceed your expectations. Whether you operate in the field, on the factory floor, or in extreme conditions, our Rugged PCs with expansion capabilities ensure that your technology keeps pace with your business growth.

Invest with confidence as our new range of products are designed for longevity using embedded technology with extended roadmaps minimizing the need for frequent upgrades.
