# Enhance Your Arsenal with Stealth's "EnviroShield" Waterproof Computing Solutions

We are thrilled to present our Waterproof Product Portfolio. This month, we're spotlighting the WPC-905 Waterproof PC and its complementary peripherals. Designed for the harshest environments, these EnviroShield Solutions safeguard your technology in industrial, commercial, and governmental settings.

## Unmatched Waterproof Solutions for Your Rugged Needs

**Presenting the WPC-905:**
A high-performance, rugged Waterproof PC completely sealed against liquids, chemicals, dust, and dirt. It meets IP67/NEMA 6 specifications, ensuring reliable operation in demanding conditions.

**Key Features of the WPC-905:**
- **Waterproof & Dustproof:** Sealed to IP67 standards
- **Robust Performance:** Powered by Intel® Core™ Processors – up to i7
- **Flexible Power Options:** Wide-range DC input (9 – 48VDC)

**Certified for Excellence:**
Our solutions meet industry standards, including RoHS, CE & FCC, EN50121-3-2, and EN50155, ensuring high quality and reliability.

**Watch and Learn:**
Get an in-depth look at the WPC-905 by watching our YouTube Video. See how our solutions exceed expectations in real-world applications.

**Complete Your Setup with Waterproof Peripherals:**
Enhance your computing experience with our rugged keyboards, pointing devices, and displays. Our SV-1505L Stainless Steel Model includes a 15.0″

Sunlight Readable LCD Monitor with 1,600 Nits brightness and a NEMA 4X / IP66 sealed front panel, ensuring optimal performance and durability.

**The Stealth Advantage:**
We offer cutting-edge solutions that are reliable, durable, and tailored to your needs. Our WPC-905 and rugged offerings deliver exceptional performance, supported by knowledgeable sales representatives dedicated to helping you select the best solutions.

**Imagine the Possibilities:**
From Embedded Control to Marine applications, our WPC-905 excels. Discover how our EnviroShield solutions can transform your operations.

**Learn More:**
